

TRANSFER DATABASES

Some **Do's** and **Don'ts**

1. **Don't use the “admin” user id, When creating a transfer database.**
2. **Do make additional “admin” users (as a backup) such as Admin1, Admin 2, and identify them to the “Sys-Admin Group.**
3. **Don't export data from your database, and then import back to your own database. Users will be “inactivated”.**
4. **Do log onto a transfer database using the following userid/password:
Reviewer/asat**
